About Program

NRI Parents Wellness & Care Plan

The NRI Parents Wellness & Care Plan is a structured senior healthcare program designed to ensure continuous medical support for parents living in Hyderabad.

We provide doctor home visits, vitals monitoring, preventive diagnostics, specialist consultations, and direct reporting to children living abroad.

Purpose of the Program

To offer seniors safe, dependable healthcare at home while ensuring NRI families receive transparent updates, regular reports, and complete peace of mind—no matter where they live.

Vision & Mission

→ Vision

To become Hyderabad's most trusted and comprehensive home-based senior healthcare provider, offering safe, compassionate, and continuous care for every parent.

→ Mission

- To deliver structured and preventive healthcare directly at home.
- To provide accurate and timely medical updates to families living abroad.
- To ensure seniors receive expert medical support through specialists, diagnostics, and personalized care.
- To build trust through transparency, reliability, and senior-friendly healthcare solutions.

Our Core Values

Care

We treat every parent with empathy, patience, and respect—just like family.

Trust

Transparent reporting builds confidence between seniors, NRI families, and our doctors.

Safety

All services and diagnostics follow strict medical protocols for senior wellness.

Commitment

We ensure consistent follow-ups, timely visits, and dependable care throughout the program.
